### PLASTIC WELDING KITS

REPAIR TANKS, BINS AND OTHER ITEMS

A new series of plastic welding tool kits that can be configured by the user for making specific types of repairs such as tanks, bins, liners and roofs is available from Malcom Hot Air Systems of Portsmouth, Rhode Island.

The Malcom Plastic Welding Kit features a compact 1600 Watt Leister Triac hot air tool with adjustable temperatures from 70° to 1400° and variable air flow to 8 CFM. The kit includes a 2 lb. Assortment of PVC, PP, PE, PC, LDPE, and ABS welding rod and users can order specific types of welding tips and tools to build their own custom kit, depending on their needs.

Packed into a handy tool box with a tray, the Malcom Plastic Welding Kit can include such items as a speed welding tip, rotary burr for preparing grooves, side cutters, pliers, a scraper and other tools. A plastic welding instruction booklet is included and prepackaged kits are offered for repairing tote boxes, roofs, tarpaulins, vehicles and other items.
